

How does our application work?

- Our platform follows the “portal concept”. We have built an application which is able to connect and to display other websites in an organized way.
- When a customer wants to invest via StartupSpider, this is still processed on the original platform, but for the customer it is like out of one hand
- Our application does not only “display” other platforms, it also contains logic which allows to store related project information in our internal Database. This data is used for our platform analytics (artificial intelligence) and services we build for our customer
- Put the CROWD in the focus, get the Crowd engaged and support “gamification”-user-experience
- Offering services for the community and the overall eco-system. Build it together with us and become a member

Active or passive membership?

Passive “member”

- Enlarge your customer base
- Become more visible as member of a large community (also for startups)
- Your Crowdfunding platform is getting connected to our portal. Implementation date based on “best effort”
- Benefit from the learnings of others and shape the eco-system together (therefore interesting for other type of institutions e.g. universities)
- Logo is getting displayed on our website

Active “member” – additionally to passive member ship

- Access to working groups and the developed outcome (e.g. investor checklist, research, regulatory topics)
- Getting access to startups which match your criteria
- Advanced information (accepting GDPR)
- Benefit from centrally developed APIs
- Priority over “passive member” in regards onboarding (connecting platform)

What is the fee model?

Passive “member”

- Free of charge

Active “member”

- Costs p.a. 8000 CHF (plus tax)
- Firms which have signed the “active membership” by 31st Aug. 2019 benefit from the early bird tariff (50% reduction first year)

Passive membership is for free

Application for Membership (Version 1.2 from 24.05.2019)

I. Firm details

Name of firm
Legal structure
Registered domicile
Mailing address
Web address
.....
Telephone
